Legal notice

MyCryptoLog · 07/11/2026

1. About the application

In accordance with French Law No. 2004-575 of 21 June 2004 on confidence in the digital economy, users of the MyCryptoLog application are informed of the identity of the various parties involved in its creation and maintenance:

Owner: Bruno PIERRE-JUSTIN – Project director – 33185 Le Haillan, France
Creator: Bruno PIERRE-JUSTIN
Publication director: Bruno PIERRE-JUSTIN – mcl-support@mycryptolog.com
The publication director is a natural person.
Webmaster: Bruno PIERRE-JUSTIN – mcl-support@mycryptolog.com
Host: OVH – 2 rue Kellermann – 59100 Roubaix – France (servers located in Beauharnois, Quebec, Canada)

2. Terms of use of the application and of the services offered

Using the MyCryptoLog application implies full acceptance of the terms of use. These terms of use may be amended or supplemented at any time; users of the MyCryptoLog application are therefore invited to consult them regularly.

The application is normally available to users at all times. However, the MyCryptoLog team may decide to interrupt it for technical maintenance, in which case it will endeavour to inform users of the date and time of the work in advance.

The MyCryptoLog application is regularly updated by the MyCryptoLog team. Likewise, this legal notice may be amended at any time; it is nevertheless binding on users, who are invited to consult it as often as possible.

3. Description of the services provided

The purpose of the MyCryptoLog application is to provide regular information on the value of the digital assets it tracks. It allows users to follow their asset portfolio as a whole.

The application is free and funded by advertising. Optional Premium options (no advertising, alerts, detailed statistics, weekly report, capital gains calculation aid, access from a web browser) are offered for one month on sign-up, then available by monthly or yearly subscription in the Android application, with Google Play, under the conditions shown in the application.

The MyCryptoLog team strives to provide information that is as accurate as possible in the MyCryptoLog application. However, it cannot be held liable for omissions, inaccuracies or failures to update the information, whether caused by the team or by the third-party partners that provide this information.

All the information given in the MyCryptoLog application is provided for guidance only and may change. Furthermore, the information in the MyCryptoLog application is not exhaustive. It is given subject to any changes made since it was published.

Users are invited to check the information they record, as well as the many calculations offered by the application to help them track their digital assets.

4. Contractual limitations on technical data

The MyCryptoLog application cannot be held liable for any material or financial damage related to its use. In addition, users of the application undertake to access it using recent equipment that is free of viruses.

5. Intellectual property and infringement

Bruno PIERRE-JUSTIN owns the intellectual property rights or holds the rights of use for all the elements available in the application, in particular the texts, images, graphics, logo and icons.

Any reproduction, representation, modification, publication or adaptation of all or part of the elements of the application, by any means or process, is prohibited without the prior written authorisation of Bruno PIERRE-JUSTIN – mcl-support@mycryptolog.com.

Any unauthorised use of the application or of any element it contains will be considered an infringement and prosecuted in accordance with Articles L. 335-2 et seq. of the French Intellectual Property Code.

6. Limitation of liability

The MyCryptoLog team cannot be held liable for any direct or indirect damage caused to the user's equipment when accessing the MyCryptoLog application, resulting either from the use of equipment that does not meet the specifications set out in section 4, or from a bug or an incompatibility.

The MyCryptoLog team reserves the right to remove, without prior notice, any user who breaches the laws applicable in France, in particular the provisions on data protection. Where appropriate, the MyCryptoLog team also reserves the right to engage the civil and/or criminal liability of the user, in particular in the event of an attempt to hack or compromise the integrity of the application.

7. Personal data

Personal data is protected by Regulation (EU) 2016/679 of 27 April 2016 on data protection (GDPR) and by the amended French Data Protection Act No. 78-17 of 6 January 1978.

When the MyCryptoLog application is used, the following may be collected: the user's email address, their IP address, technical information about their device and browser, the notification identifier of the device, and the data they enter (wallet, transactions, alerts).

In any event, the MyCryptoLog team only collects personal information about the user for the needs of certain services offered by the MyCryptoLog application. Users provide this information knowingly, in particular when they enter it themselves. Users of the MyCryptoLog application are then informed whether or not they are required to provide this information.

In accordance with Articles 15 to 21 of the GDPR, every user has the right to access, rectify, erase, restrict, port and object to the processing of their personal data. They exercise these rights by deleting their account directly in the application or by sending a written request by email to mcl-support@mycryptolog.com. They may also lodge a complaint with the French data protection authority (CNIL, www.cnil.fr).

Account data is kept for as long as the account exists and is deleted when the account is deleted. Technical logs (email address, IP address, device information) are kept for no more than 12 months for security and troubleshooting purposes; those linked to the account are erased when it is deleted.

No personal information about the user is published without their knowledge, exchanged, transferred, assigned or sold to third parties on any medium. Only the acquisition of the MyCryptoLog application and its rights would allow this information to be passed on to the potential buyer, who would in turn be bound by the same obligation to keep and amend the data with regard to the user of the application.

To operate, the application relies on the following providers, which may process some of the user's data:
- OVH (France): hosting of the application and its data, sending of emails;
- Google Firebase Cloud Messaging: push notifications (notification identifier of the device or browser);
- Google AdMob: advertising in the Android application (advertising identifier of the device);
- Google reCAPTCHA: protection of the sign-up form against bots;
- Google Charts and Font Awesome: display of charts and icons, loaded from their servers (which receive the IP address);
- Google Play: distribution of the Android application and payment of Premium subscriptions.

Some of these providers may process data outside the European Union, under the safeguards provided for by the GDPR. Prices and market data come from CoinGecko, exchange rates from currencyapi and the automatic translations of the help pages from Google Translate: no personal data is sent to them.

The databases are protected by French Law No. 98-536 of 1 July 1998 transposing Directive 96/9/EC of 11 March 1996 on the legal protection of databases.

8. Hyperlinks and cookies

The application may contain outgoing hyperlinks; however, the MyCryptoLog team has no control over these external links and accepts no liability for the web pages they lead to.

A cookie is a small file that does not identify the user but records information about a computer's browsing on a website. The data obtained in this way is intended to make subsequent browsing easier. The application and the site use no audience measurement cookies.

9. Governing law and jurisdiction

Any dispute relating to the use of the MyCryptoLog application is governed by French law. The competent French courts have exclusive jurisdiction, subject to the mandatory rules protecting consumers.

10. Main applicable laws

Regulation (EU) 2016/679 of 27 April 2016 on data protection (GDPR).
Amended French Data Protection Act No. 78-17 of 6 January 1978.
French Law No. 2004-575 of 21 June 2004 on confidence in the digital economy.

11. Glossary

User: any Internet user who signs in to or uses the application.
Member: the user becomes a member once signed in to the application.
Personal data: “any information relating to an identified or identifiable natural person” (Article 4 of the GDPR).
